MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT : [REDACTED] Equipment

25X1

REFERENCE : Your Request on the Above Subject

1. A thorough search has failed to locate the above equipment. Records indicate that the equipment was delivered to the [REDACTED] [REDACTED] but a search of that area indicates probable subsequent delivery to the Navy Yard for destruction.

25X1

2. We do not believe that the [REDACTED] equipment would be particularly useful. The equipment had been cannibalized in part while still located in the QRB Facility and prior to any deployment would have required extensive overhaul and general updating.
